## All-Weather 42'' Square Fire Pit Table

### Care

This material is made of HDPE plastic resin that has been purified and UV protected. It is generally cared for and cleaned with soap and warm water. For certain stains and additional cleaning power, a 1/3 bleach and 2/3 water solution can be used on the product without affecting the color. Also, a popular method of cleaning is a high-pressure power wash. (Not to exceed 1,500 psi, which is the equivalent of a car wash.) The surface characteristics of the product may require the use of a soft bristle brush to get into the creases.

The hardware used in the assembly and construction of our furniture is 18-8 stainless steel with an AlloChrome 3200+™ finish and a cosmetic coating, providing a high level of corrosive resistance.

A practical solution to signs of corrosion is to wash the product with soap and water, using a soft bristle brush to scrub the corroding areas of the hardware. Also, use appliance touch up paint in the appropriate color to protect the hardware. Appliance touch up paint can be purchased at local hardware stores.

Thank you for purchasing our Product Name.

Assembly of this product requires a 4mm Hex Key which is included.

We have found it helpful to have a second person present in at least one step of the assembly.

### TOOLS

(Not Included)

4mm T-handle hex key (included)

### PARTS

1.5" Screw — H.27X1.5

1

**Note:** Line up top screw holes with base screw holes

2

3

See Crystal Fire Plus manual for burner installation

4

5

See Glass Guard-20-R manual for assembly instructions

**Important!**  
Glass Guard Required

Protect with included cover when not in use. Before covering, allow sufficient time for the unit to cool after use.

When turning off the gas, wait until bowl has cooled down and tilt propane tank forward.
